

NAB Leadership Grant

On 09/30/02, NAB voted to start the NAB Leadership Grant with the guidelines that it would be open to any dues-paying club that showed a need for funding a leadership-based event. The stipulations on the grant include that a maximum of one grant per academic year can be granted to each region in the amount of \$400.00 or less. The broad-category leadership grant can be used for materials, speaker costs, transportation/registration cost for a club to send delegates to a leadership conference, anything related to enhancing the leadership abilities of our organization or for our organization to provide leadership training to others. The grant cannot be used for a club to send delegates to their own "home" regional conference, but can be utilized for a club to send members to another region's conference.

Application Process:

The application process consists of the club submitting a formal letter stating the need for the grant, how much money they are asking for (up to \$400.00) and the benefit Collegiate 4-H will receive if they utilize the grant. The letters should be submitted to the club's respective NAB representative, who then emails the letter to all of NAB. The 5 voting members of NAB will be responsible for screening the applications. NAB votes by e-mail to approve/disapprove the grant request.
